

**COSC 1420.S01  
PROGRAM TWO**

**ASSIGNMENT:**

Write a program which will

- 1) Ask the user to enter two whole numbers.
- 2) Display the following (all as whole numbers):
  - a. The original two numbers.
  - b. The sum of the two numbers
  - c. The result of the first number divided by the second number
  - d. The remainder of the first number divided by the second number
  - e. The result of the first number times the second number
  - f. The result of the first number minus the second number
- 3) Ask the user for two decimal point numbers
- 4) Display the following (all as decimal point numbers):
  - a. The original two numbers.
  - b. The sum of the two numbers
  - c. The result of the first number divided by the second number
  - d. The result of the first number times the second number
  - e. The result of the first number minus the second number

**TURN IN:**

- 1) An electronic copy of the .c file in the project folder as created by Visual Studio. This will be emailed to the instructor with the subject line "COSC 1420.S01 – Lab 2".
- 2) If you wish any feedback on your work, turn in a printed listing of the .cpp file that you created.

**DUE:** 30 Jan 2019
